

# CYBER INSANITY

*Cyber war, cyber crime, cyber hacks, and attacks.*

Dave Winberg, Special Programs Director at SDL and former employee of the National Security Agency, will provide an overview of cybersecurity and the many nefarious things that threaten its integrity. He will discuss what is being done to defend cybersecurity and what you can do personally to avoid having your data compromised. Don't miss this opportunity to learn from an expert in the field of cybersecurity.

**David Winberg**  
Director of Special Programs  
Space Dynamics Laboratory

**Wednesday, September 20, 2017**

USU Main Campus  
Engineering Building (ENGR)  
Room 104  
4:30PM - 5:30PM  
Matthew Jensen  
435.797.8170

**HOSTED BY:**

COLLEGE of  
**ENGINEERING**  
UtahStateUniversity

Lectures are free and open to faculty and students
