Civil Solutions Group (CSG) is a civil engineering, land surveying, and landscape architecture firm located in Providence, Utah. CSG focuses on sustainable engineering and planning practices. The following principles guide our consultation, planning, and design services at CSG:
- Planning Healthy Communities
- Designing and Engineering Sustainable Sites
- Creating Beautiful Landscapes

**Description:**
CSG is seeking a qualified civil engineering intern to join our team beginning work on May 4, 2020. This is a surveying, drafting and plan production position. The position will be full-time in the summer and part time during the school year with responsibilities both in the field and in the office. Compensation will be commensurate with experience.

**Responsibilities**
- Construction Staking
- Project assistance through boundary and topographic survey data collection
- Plan production & drafting
- Learning project management skills

**Requirements:**
CSG is looking for a student with studies focused in civil engineering. The candidate must be self-motivated and willing to work hard. This position requires that the candidate be able to lift up to 50 lbs. The candidate may also be expected to work during times when weather is unfavorable. The candidate shall have good verbal and written communication skills and have the ability to work within a team setting. **It is preferred, but not a pre-requisite that the candidate have experience with AutoCAD and or AutoCAD Civil 3D, Basic Land Surveying Practices, Word, and Excel.**

**How to Apply:**
Interested candidates are to email their resume, cover letter, and references to ebrown@csgwork by **February 14, 2020.** This position may be filled prior to this deadline if the right candidate applies!
