Oct. 4, 2017 – Interim College of Engineering Dean Dr. Jagath Kaluarachchi and department heads from across the College of Engineering on Tuesday recognized 28 students for receiving the prestigious A-Pin award.

The A-Pin is one of the oldest awards at Utah State University. Initiated in 1910, it acknowledges and rewards students who achieve a straight-A grade point average while carrying 15 graded credit hours for two consecutive semesters.

The pin itself features the primary icon of Utah State University's Old Main Tower and includes the phrase "USU Scholarship," denoting the highest marks in scholarly achievement.

The students were treated to a catered luncheon with the dean and department heads. Visit the A-Pin page to see additional award years.

The 'A-Pin'

Fall 2017 Recipients:

Tyler Ashby
- Civil Engineering

Weston Bellon
- Civil Engineering

Matthew Berghout
- Mechanical and Aerospace Engineering
Kelvyn Bladen  
- Mechanical and Aerospace Engineering

Carson Bradshaw  
- Computer Science

Thomas Bradshaw  
- Electrical Engineering

Kelly Burch  
- Mechanical and Aerospace Engineering

Braedin Butler  
- Mechanical and Aerospace Engineering

Darcie Christensen  
- Biological Engineering

Joshua Dickison  
- Mechanical and Aerospace Engineering

Morgan Durocher  
- Electrical Engineering

Taylor Durtschi  
- Civil Engineering

Bryce Fisher  
- Mechanical and Aerospace Engineering

Daniel George  
- Mechanical and Aerospace Engineering

Cory Goates  
- Mechanical and Aerospace Engineering

Bryce Halling  
- Electrical Engineering

Hyrum Haroldsen  
- Civil Engineering

Ammon Hepworth  
- Computer Science

Cody Kelley  
- Mechanical and Aerospace Engineering

Colton Lindstrom  
- Electrical Engineering

Cameron Milne  
- Computer Science

Jace Parkinson  
- Biological Engineering

Nicholas Rodgers  
- Computer Science
Congratulations A-Pin Recipients! | College of Engineering

Sabrina Snow  
- Mechanical and Aerospace Engineering

Alicia Stucki  
- Biological Engineering

Madeline Tennant  
- Environmental Engineering

Paden Thompson  
- Computer Engineering

Esteban Womack  
- Electrical Engineering
