

Welcome to the College of Engineering | College of Engineering

08/21/2020

Aug. 24, 2020 — My name is Jagath Kaluarachchi, and I'm the Dean of the College of Engineering. We're excited to welcome our first-year and returning Aggies back to campus.

– Dr. Jagath Kaluarachchi
Dean of the College of Engineering

It's an exciting time to study engineering at USU. You have access to more resources than any class before you, including [free tutoring](#), the [Engineering Writing Center](#), a dedicated student study area, and our two famous makerspaces: the [Idea Factory](#) and the [Metal Factory](#).

As you begin your journey, we recommend that you visit your [academic advisor](#) on a regular basis. Students who meet with their advisor consistently, enjoy greater success. We also encourage you to join a [club](#) and to get involved in [research](#) or industry engagement opportunities. Even with COVID-19 restrictions in place, there are many ways to stay connected. And be sure to follow us on

social media. You can find all this information by visiting engineering.usu.edu.

Lastly, remember to look out for one another. Do your part to keep yourself and your fellow Aggies safe and healthy. When you're on campus, wear a face covering, practice social distancing, stay home when you're sick, and practice prevention hygiene. By demonstrating care and kindness, we can all thrive and make the most out of this semester. Again, a warm welcome to each of you. Good luck and Go, Aggies!
