

Engineering Event to Feature Former CIA Assistant Director Matt Berrett | College of Engineering

01/13/2022

Jan. 13, 2022 — Students are invited to a special College of Engineering event on Jan 19 with keynote speaker Matt Berrett who is the current Director of Analytics at Space Dynamics Laboratory and a former assistant director of the United States Central Intelligence Agency.

Wednesday, January 19, 2022 | 5:30 pm - 6:30 pm | Anderson Engineering Room 103

Berrett is an influential leader at Utah State. In 2018, he co-created USU's Center for Anticipatory Intelligence, which brings STEM and social sciences students together to study the effects of a wide range of factors transforming the world.

Wednesday's event is the spring semester kickoff of the College of Engineering's new [Launch Your Engineering Career](#) initiative. Refreshments will be served. Enter a raffle to win airpods, a \$50 Visa gift card, or other college merchandise. Aggie Ice Cream vouchers will be given to the first 100 people.
